

GRANTS for EXPLORATORY ACADEMIC RESEARCH (GEAR)

SC EPSCoR/IDeA Solicitation Number: 12-101

Important Dates

Release Date: February 3, 2012

Submission of Proposals: Monday, April 23, 2012

Anticipated Period of Performance: July 1, 2012 – June 30, 2013

Award Amount: Up to \$75,000

Total Funding Available: \$400,000 (contingent on receipt of federal funding)

Program Information

The goal of the Grants for Exploratory Academic Research (GEAR) Program is to encourage multi-disciplinary research projects that have the ability to be at or beyond the frontiers of scientific discovery. Awards may include support for start-up funding for new junior, tenure-track faculty hires; acquisition of shared equipment; expansion and enhancement of mentoring and research development opportunities for researchers at all levels of career development; student research traineeships; or development of collaborative partnerships. Collaborative projects between South Carolina's institutions, including those with the state's minority-serving institutions (MSIs) and technical colleges, and industry-university partnerships are encouraged. The submission of an extramural proposal relevant to the supported activities, peer-reviewed publications, and evidence-based impact on institutional research culture are expected outcomes of GEAR support.

Proposals must respond to one of the following specific research priorities, listed in no particular order:

- **Cell, Molecular or Developmental Biology:** identifying mechanisms to accelerate maturation (maturogens) or support newly assembled vascular tubes; and/or mechanisms of stem cell differentiation into endothelial and smooth muscle including roles of hydrogels, biomechanical forces or scaffolds;
- **Biomechanics and Bioassembly:** support for testing engineered tissue properties, comparison to authentic natural blood vessels, processing and post-processing viability of vascular spheroids in assembled ("printed") structures;
- **Biomathematics/Mathematical Modeling and Testing:** Computer simulation of vascular tissue spheroid fusion and viability and behavior of engineered vascular structures during the bioprinting assembly process and in bioreactors; or
- **Bioprinting:** Development of hardware and software to rapidly assemble viable tissue constructs using living building blocks or spheroids ("bioink").

Proposals must be aligned with one or more of the research thrusts and designed to attack one or more of the scientific barriers of the SC Project.

The research thrusts of the SC Project are:

Thrust I: *In silico* vascularization/biomathematics

Thrust II: Stem cell differentiation and lumen formation

Thrust III: Naturally occurring and biofabricated vascular structural parameters

Thrust IV: Bioprinting, bioink and spheroid production

Thrust V: Maturogens

The scientific barriers of the SC Project are:

Cellular machinery – we need a molecular-level understanding of the basic physical, chemical, and biological conditions that direct cells to assemble into and maintain complex communities and functional 3D tissues

Cell/environmental interactions – we need to develop a physical and quantitative understanding of how cells respond to molecular signals and integrate multiple inputs to generate a given response in their physiological environment

Assembling and maintaining complex tissues – we need to develop novel tools and bioreactors to precisely control rapid stem/progenitor cell expansion as well as the chemical and mechanical environment for phenotype-directed 3D tissue growth and function

Rapid maturation - we need to understand how to stimulate and sustain accelerated maturation of tissue-engineered constructs

Scalable technology – we need to facilitate cost-effective production and scale-up of tissues and organs that can effectively meet regulatory requirements and meet cost-benefit targets for a wide variety of applications

Proposals submitted in response to this solicitation should clearly indicate in the project description which thrust(s) and scientific barrier(s) the proposal is addressing.

Eligibility

Any tenured or tenure-track faculty member at an institution of higher education in South Carolina is eligible to submit a proposal under this solicitation.

The SC EPSCoR/IDeA Program welcomes proposals from all qualified scientists, engineers and educators and strongly encourages women, minorities and persons with disabilities to compete fully in its programs. In accordance with federal statutes and regulations, no person on grounds of race, color, age, sex, national origin or disability shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving financial assistance from the SC EPSCoR/IDeA Program, although some programs may have special requirements that limit eligibility.

Proposal Guidelines

The SC EPSCoR/IDeA Program requires that all GEAR proposals:

- adhere to program objectives as described in this solicitation;
- provide background and rationale for the projects proposed;
- have a scientific focus that is aligned with one of the specific research priorities listed above;
- involve the participation of a student(s) at either the high school, undergraduate or graduate level; and
- provide a budget and explanation of expected costs sufficient and reasonable for completion of the proposed tasks.

Proposals submitted in response to this solicitation must be prepared using the following guidelines and specific forms listed. Proposals must be prepared with 1" margins and a font size no smaller than 11 point. All proposals must include authorized institutional representative signature on both the Cover Sheet and Budget Page.

The Principal Investigator (PI) identified on the Cover Sheet and included in the proposal shall be the designated contact person for the project and is expected to provide leadership in coordinating and integrating its activities. The PI will be held accountable for all scientific and programmatic responsibilities, including required reporting (see Award and Reporting Requirements). The Authorized Institutional Representative identified on the Cover Sheet will be held responsible for all fiscal obligations.

All GEAR proposals must be assembled in the following sequence:

- Cover Sheet for proposal to the SC EPSCoR/IDeA Program (Appendix A). The targeted extramural opportunity must be identified.
 - The proposal resulting from the GEAR award must be submitted within twelve (12) months of the Approved End Date.
- Project Description of the need for such a project and rationale for the choice of topic(s), as well as specific project objectives. Project descriptions must include discussion of proposal requirements as stated above under Proposal Guidelines, and may not exceed five (5) pages.
 - Management Plan that includes Principal Investigator (PI) and project member roles (if applicable) and responsibilities, as well as appropriate biographical sketches.
 - Sustainability Plan that describes the strategy for sustaining progress resulting from proposed activities.
 - Evaluation and Assessment Plan that includes milestones and metrics designed to assess program impacts.
- Budget Page for the project (Appendix B). See Budget section below for specific instructions.
- Budget Explanation of estimated costs. Include support requested or available from other sources, including institutional, local, and federal agencies (maximum one page). The Budget Explanation should also describe how the requested funds will contribute to a more competitive follow-on grant proposal.
- Biographical Sketches of PI and other senior personnel involved in project (maximum two [2] pages per individual; NSF format).
- Current and Pending Support of PI and other senior personnel involved in project, including title of project, sponsoring agency, period of support, amount, and percent effort for each investigator (Appendix C).

Budget

GEAR awards are non-renewable, must be expended no later than June 30, 2013, and may not exceed \$75,000 per proposal. **Indirect costs are not allowed**; however, they may be used to show a non-federal cost-share commitment. The GEAR Program is not designed to support the salaries of existing, senior key personnel. GEAR support may not be sub-contracted outside the state of South Carolina. All awards will be cost-reimbursable, and are governed by the federal cost principles for educational institutions (OMB Circular A-21).

Awardees should ensure that costs claimed under SC EPSCoR/IDeA grants are allowable and reasonable. Cost-share is encouraged, but not required. Any matching contributions from the institution or other sources should be listed in the budget and described in the budget explanation. Awardees are responsible for ensuring that costs of all sub-awards under SC EPSCoR/IDeA awards are subject to those cost principles and procedures appropriate to the sub-award type and organization involved.

Submission Instructions

Complete proposals, including a signed Cover Sheet and Budget Page, must be submitted no later than 5:00pm on Monday, April 23, 2012. Award periods of performance may vary, but should not extend beyond June 30, 2013.

All proposals must be submitted as: 1) a single MS Word or PDF file; 2) one printed and signed original; and 3) two printed copies to the South Carolina EPSCoR/IDeA Program. Electronic files may be e-mailed to lee.snelgrove@scra.org or saved on any media storage device (CD-R, DVD, flash drive) and mailed, along with the printed copies, to the address below.

South Carolina EPSCoR/IDeA Program
1000 Catawba Street
Columbia, SC 29201

Incomplete or late submissions will not be accepted.

Submission of a complete proposal, including a signed Cover Sheet, signifies the applicant's agreement that the GEAR proposal will be released for external review. Reviews will be provided to the PIs, excluding the identity of the reviewer. Oversight for the review is provided by the State Committee of the SC EPSCoR/IDeA Program.

Proposal Selection

All proposals that meet the eligibility requirements and guidelines will be evaluated based upon the extent to which they meet specific criteria, including:

- Technical merit of the proposed project;
- Potential to generate mainstream, extramural support and peer-reviewed publications;
- Qualifications of project personnel;
- Likelihood of impact on institutional research culture;
- Reasonableness of budget; and
- Significant broader impact on the state's research enterprise (including research training and mentoring of undergraduate students, and involvement of underrepresented minorities: African-Americans, Pacific Islanders, Hispanics or Latinos, Native Americans, women, and/or persons with disabilities).

Please note that activities with access to traditional sources of support will not have funding priority.

Award and Reporting Requirements

Principal Investigators will receive notice of GEAR award/declination via e-mail.

Award recipients are required to provide the SC EPSCoR/IDeA state office with project data for evaluation and reporting purposes. Accordingly, the PI must submit a comprehensive GEAR Progress Report no later than sixty (60) days after the expiration of the award. Further instructions for the preparation and submission of progress reports will be sent to the PI within 30 days after the expiration of the award. Final invoices for reimbursement must be received by July 31, 2013.

The PI is responsible for providing the following:

- Progress reports, including an abstract summary of the supported activity, summary of expenditures, project plans for the future, and project achievements (grants, publications, presentations, etc.) **For a period of time after the expiration of the award, SC EPSCoR/IDeA will continue to contact the PI for outcome-related data such as grants, publications, etc.**
- One copy of the submission confirmation page from the proposal resulting from the GEAR award.
- Evidence of other outcomes of the project, including but not limited to: publications, presentations, patents, industry–university collaborations, and other partnerships.

Failure to provide any requested materials for award or evaluation purposes will constitute default under this program. In such cases, the SC EPSCoR/IDeA Program reserves the right to recover all previously expended funds issued under the related GEAR award and the right to refuse any future GEAR proposals for consideration of funding.

CERTIFICATION PAGE

Certification for Principal Investigators and Co-Principal Investigators

I certify to the best of my knowledge that:

- (1) The statements herein (excluding scientific hypotheses and scientific opinions) are true and complete; and
- (2) The text and graphics herein as well as any accompanying publications or other documents, unless otherwise indicated, are the original work of the signatories or individuals working under their supervision. I agree to accept responsibility for the scientific conduct of the project and to provide the required project reports if an award is made as a result of this proposal. I understand that the willful provision of false information or concealing a material fact in this proposal or any other communication submitted is a criminal offense (U.S.Code, Title 18, Section 1001).

Certification for Authorized Organizational/Institutional Representative

By signing and submitting this proposal, the individual applicant or the authorized official of the applicant firm or company certifies that:

- (1) The statements made herein are true and complete to the best of their knowledge;
- (2) It agrees to accept the award terms and conditions and should these terms not be met, to negotiate a fair and reasonable plan to reimburse the South Carolina EPSCoR/IDeA Program/South Carolina Research Authority for expenditures incurred under the award;
- (3) The organization or its principals are not presently disbarred, suspended, proposed for disbarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal or State department or agency;
- (4) The organization is not delinquent on any Federal or State debt;
- (5) The organization operates as a drug-free workplace;
- (6) Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: Title VI of the Civil Rights Act of 1964 (P.L. 88-352, Title IX of the Education Amendments of 1972, as amended (20 U.S.C. § 1681 -1683, and 1685 -1686), Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), the Age Discrimination Act of 1975, as amended (42 U.S.C. § 6101-6107);
- (7) No funds will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of a Member of Congress in connection with the awarding of any Federal contract, grant, loan or cooperative agreement;
- (8) Submission of a complete proposal, including a signed Cover Sheet and Budget Page, signifies the applicant's agreement to release the proposal for external review; and
- (9) Failure to submit a proposal to the targeted agency or organization as listed on page 1 of the Cover Sheet will constitute DEFAULT under the related program. Further, SC EPSCoR/IDeA reserves the right to recover all previously expended funds issued under the related award and the right to refuse any future proposals for SC EPSCoR/IDeA funding.
